Rajani Bhavan cheruvalli  
C V Nagar Sreekaryam

## EDUCATION

**Bachelor of Technology**  
St.Thomas Institute for Science  
and Technology

(2019-2023)

## SKILLS

HTML

React.js

Python

SQL

MS Office

## LANGUAGE

English

Malayalam

Tamil

## ABOUT ME

I graduated in 2023 with a degree in Computer Science Engineering and have 6 months of experience as a software developer. I have hands-on experience with React, Python and SQL, although I consider my knowledge to be average. My professional experience has further ignited my motivation to enhance my skills and apply them in practical settings. I am enthusiastic about expanding my language skills and acquiring new concepts to become a proficient professional. I am eager to join a dynamic team where I can contribute, learn, and grow professionally.

## WORK EXPERIENCE

Nov 2023- Present

**Pivot Systems** | Module 14, Nila Building, Technopark Complex  
software developer trainee

Working as a JS developer, Hybrid application  
development and 3Dsimulation designs

## PROJECT

### Plant Leaf Disease Detection System

As part of my academic project, I developed a plant Leaf Disease Detection System utilizing the VGG19 deep learning model. This project showcased my proficiency in deep learning techniques and their potential impact on agriculture and crop management

### College Bus Tracking System

As part of my minor project, I developed an android application aimed at tracking college buses using location sharing. The application allowed users to track the real-time location at the college buses. This project showcased my skills in mobile app development.
